Total Meetings

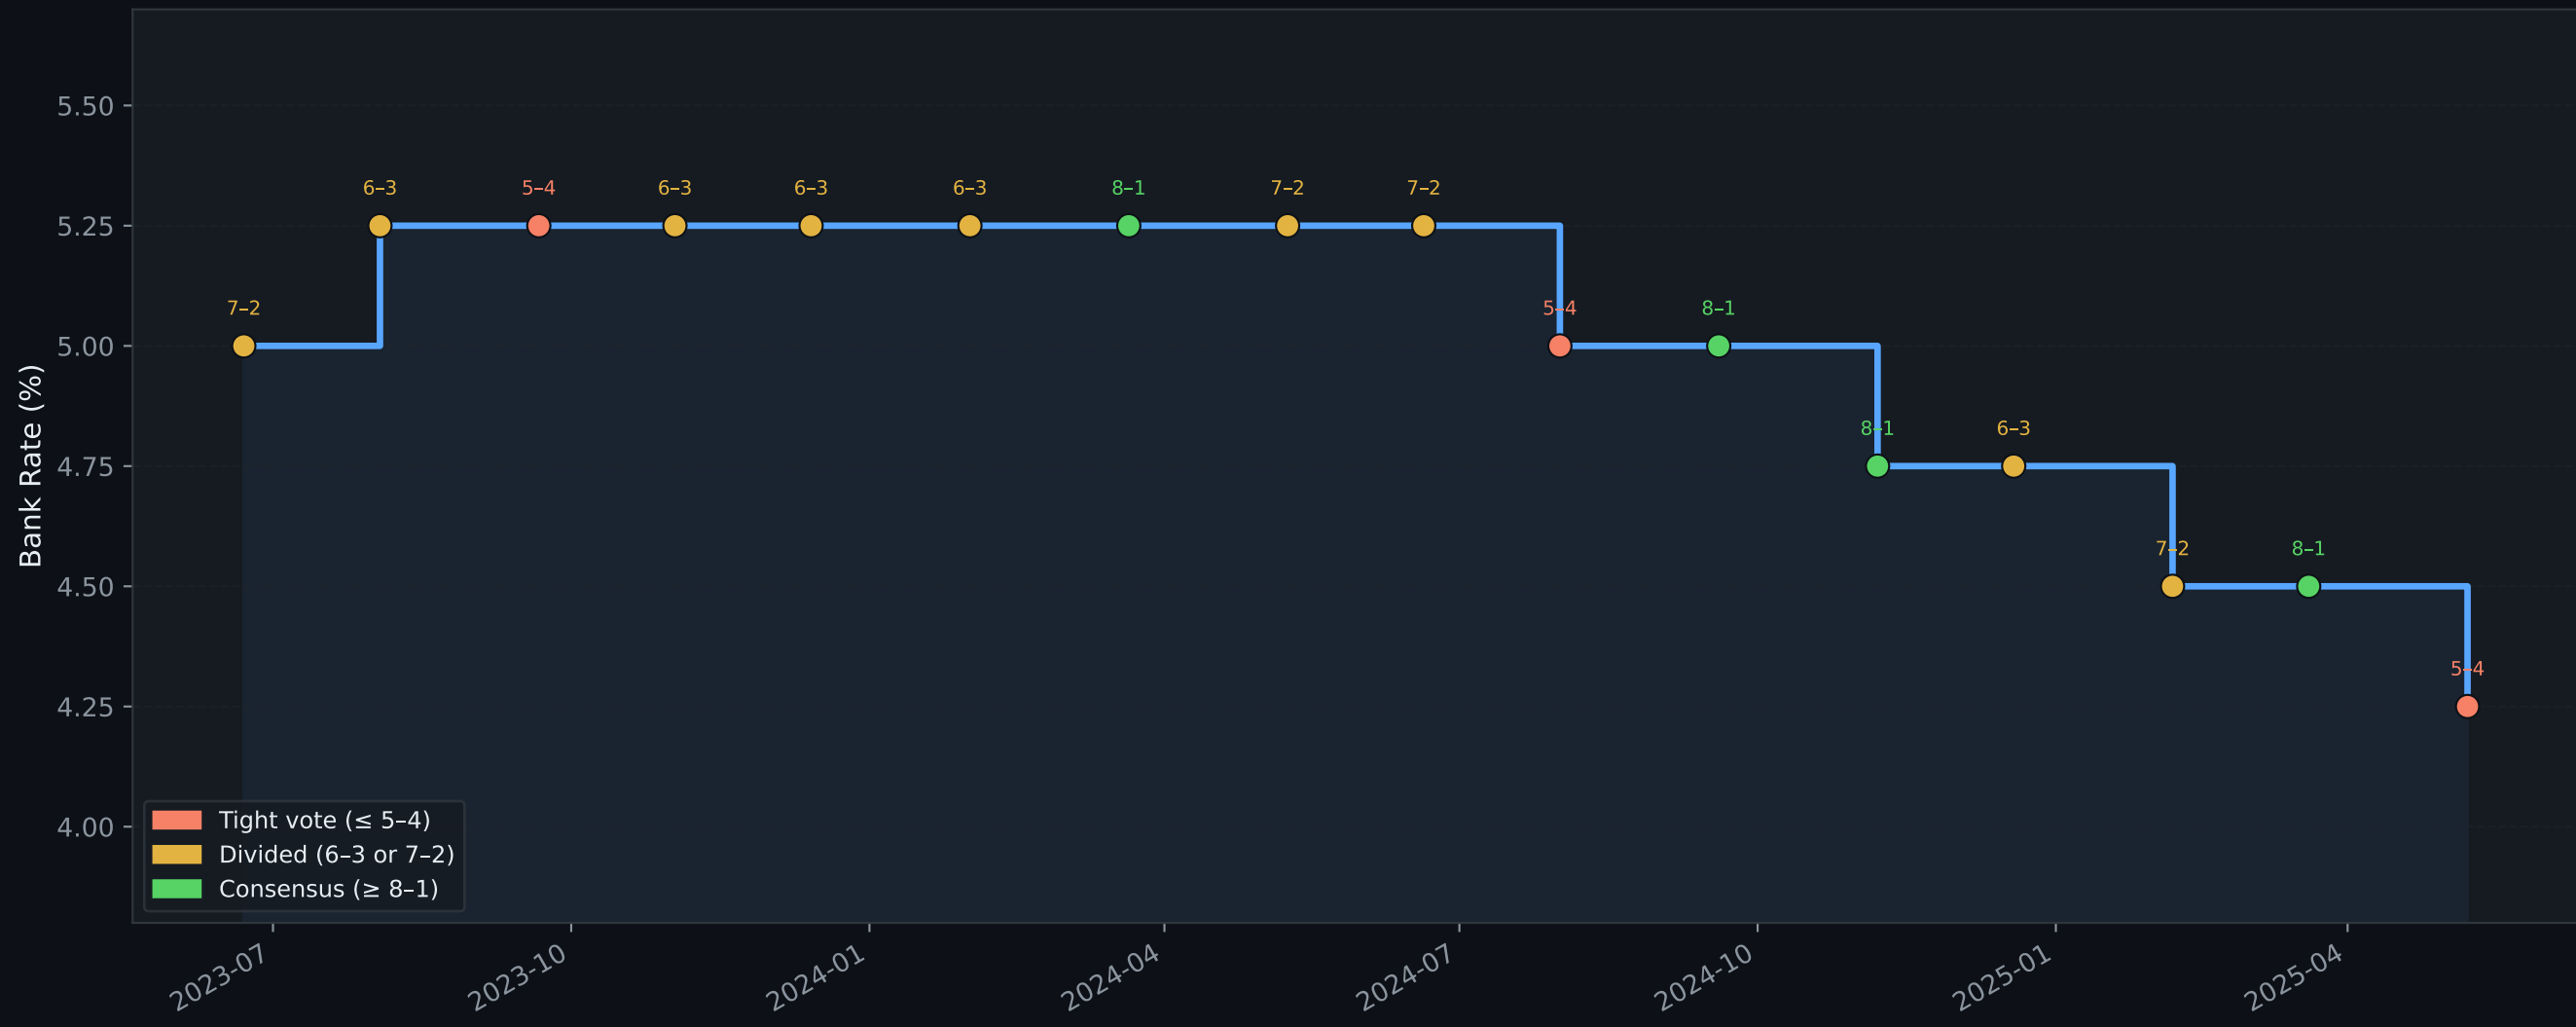

The Monetary Policy Committee (MPC) has nine members: the Governor, three Deputy Governors (Monetary Policy, Financial Stability, Markets & Banking), the Chief Economist, and four external members appointed by the Chancellor. The committee meets eight times per year.

Decisions require a simple majority; in a tie the Governor has the casting vote. Each member's individual vote is published two weeks after the meeting alongside the minutes. Votes may differ in magnitude – e.g. a member may vote for a 50 bps move while the majority votes 25 bps.

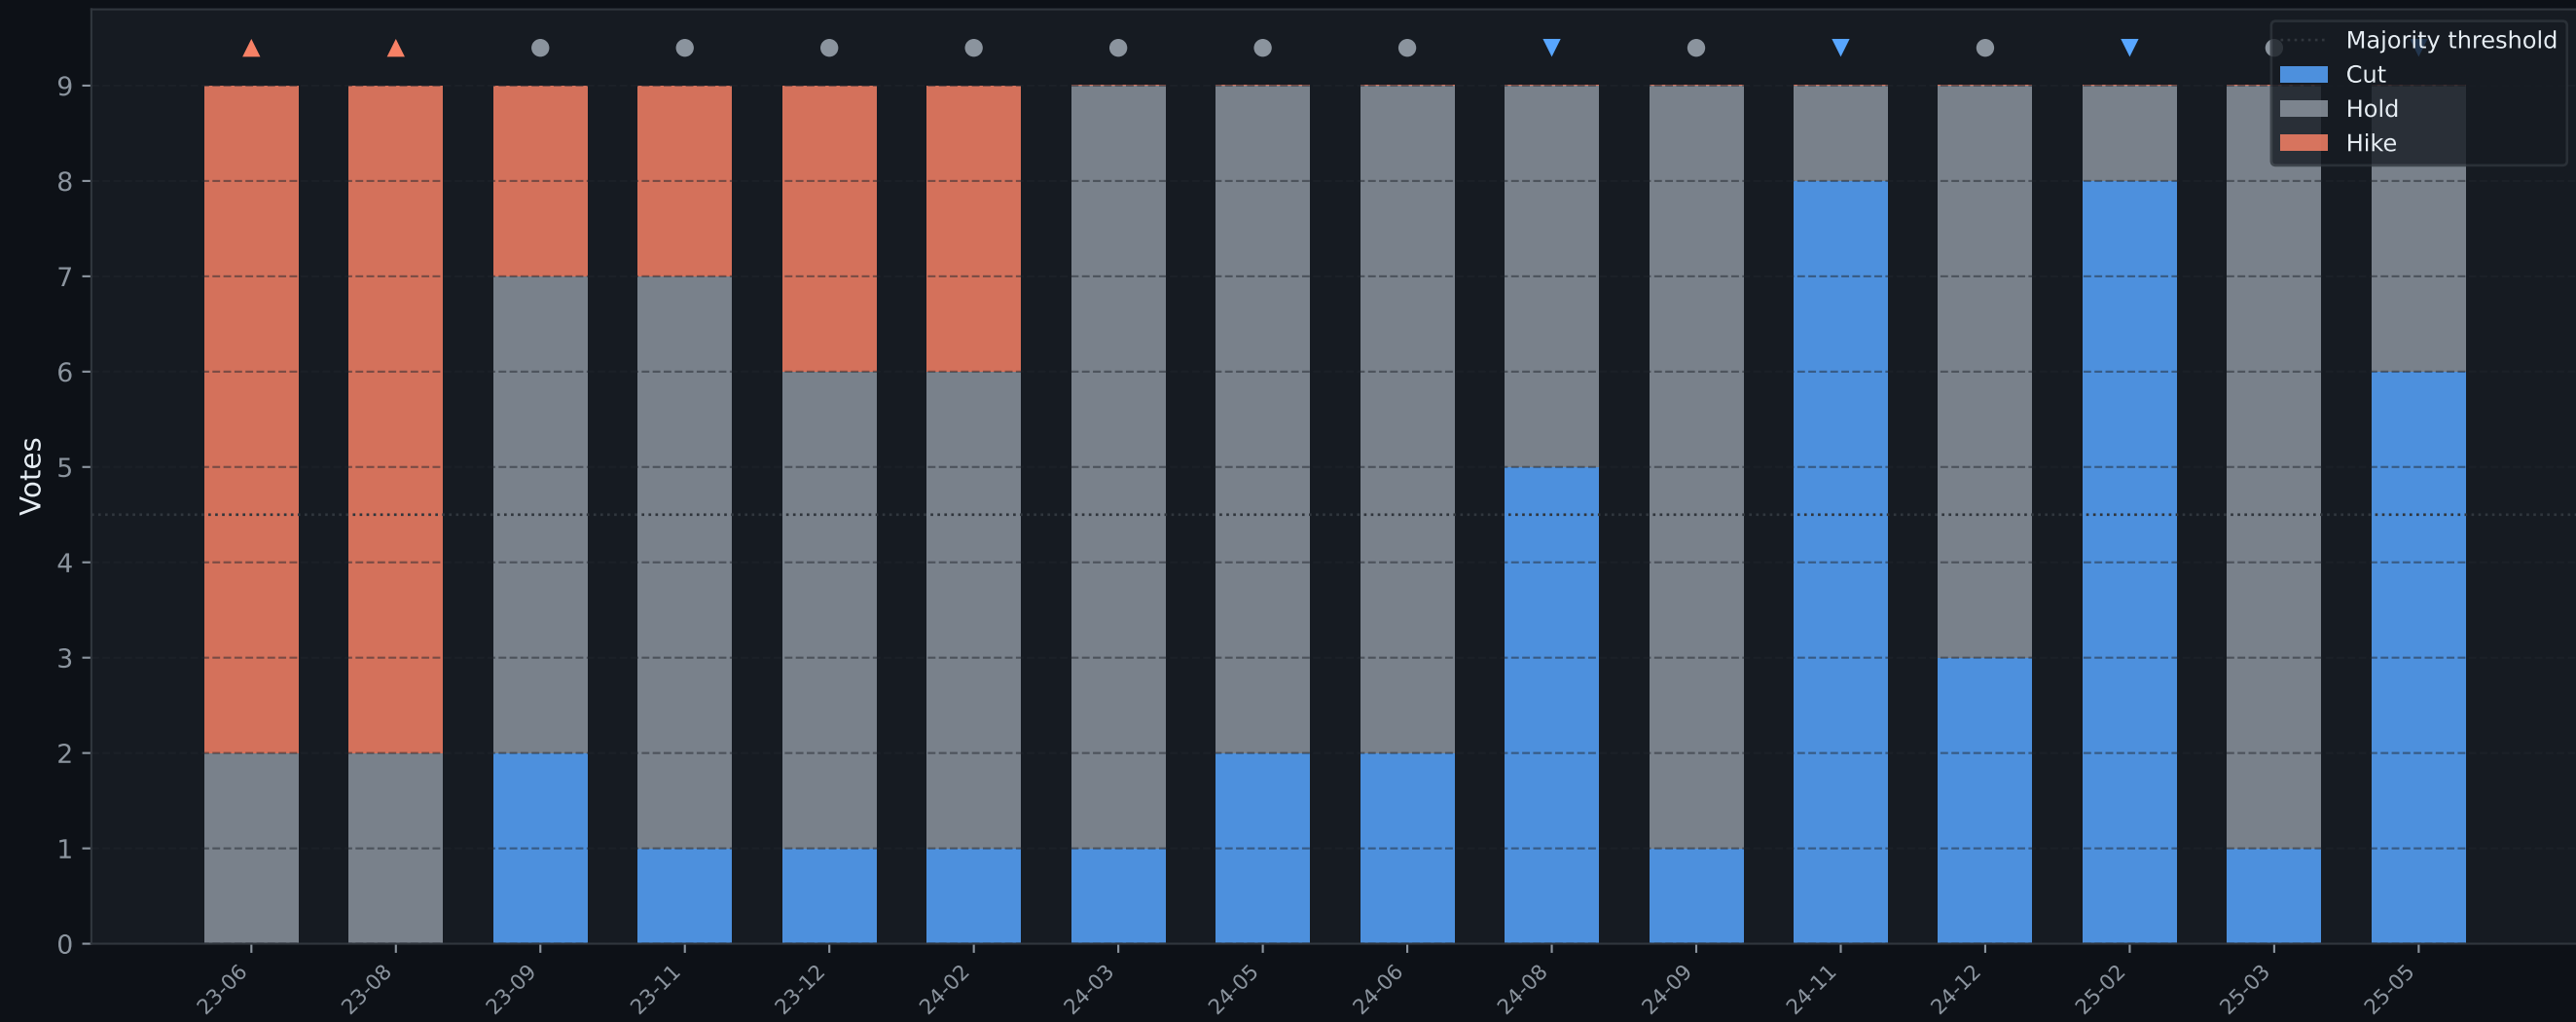

Most recent meeting: 2025-05-08 – Decision: CUT to 4.25% (5–4)

Previous meeting: 2025-03-20 – Decision: HOLD to 4.50% (8–1)

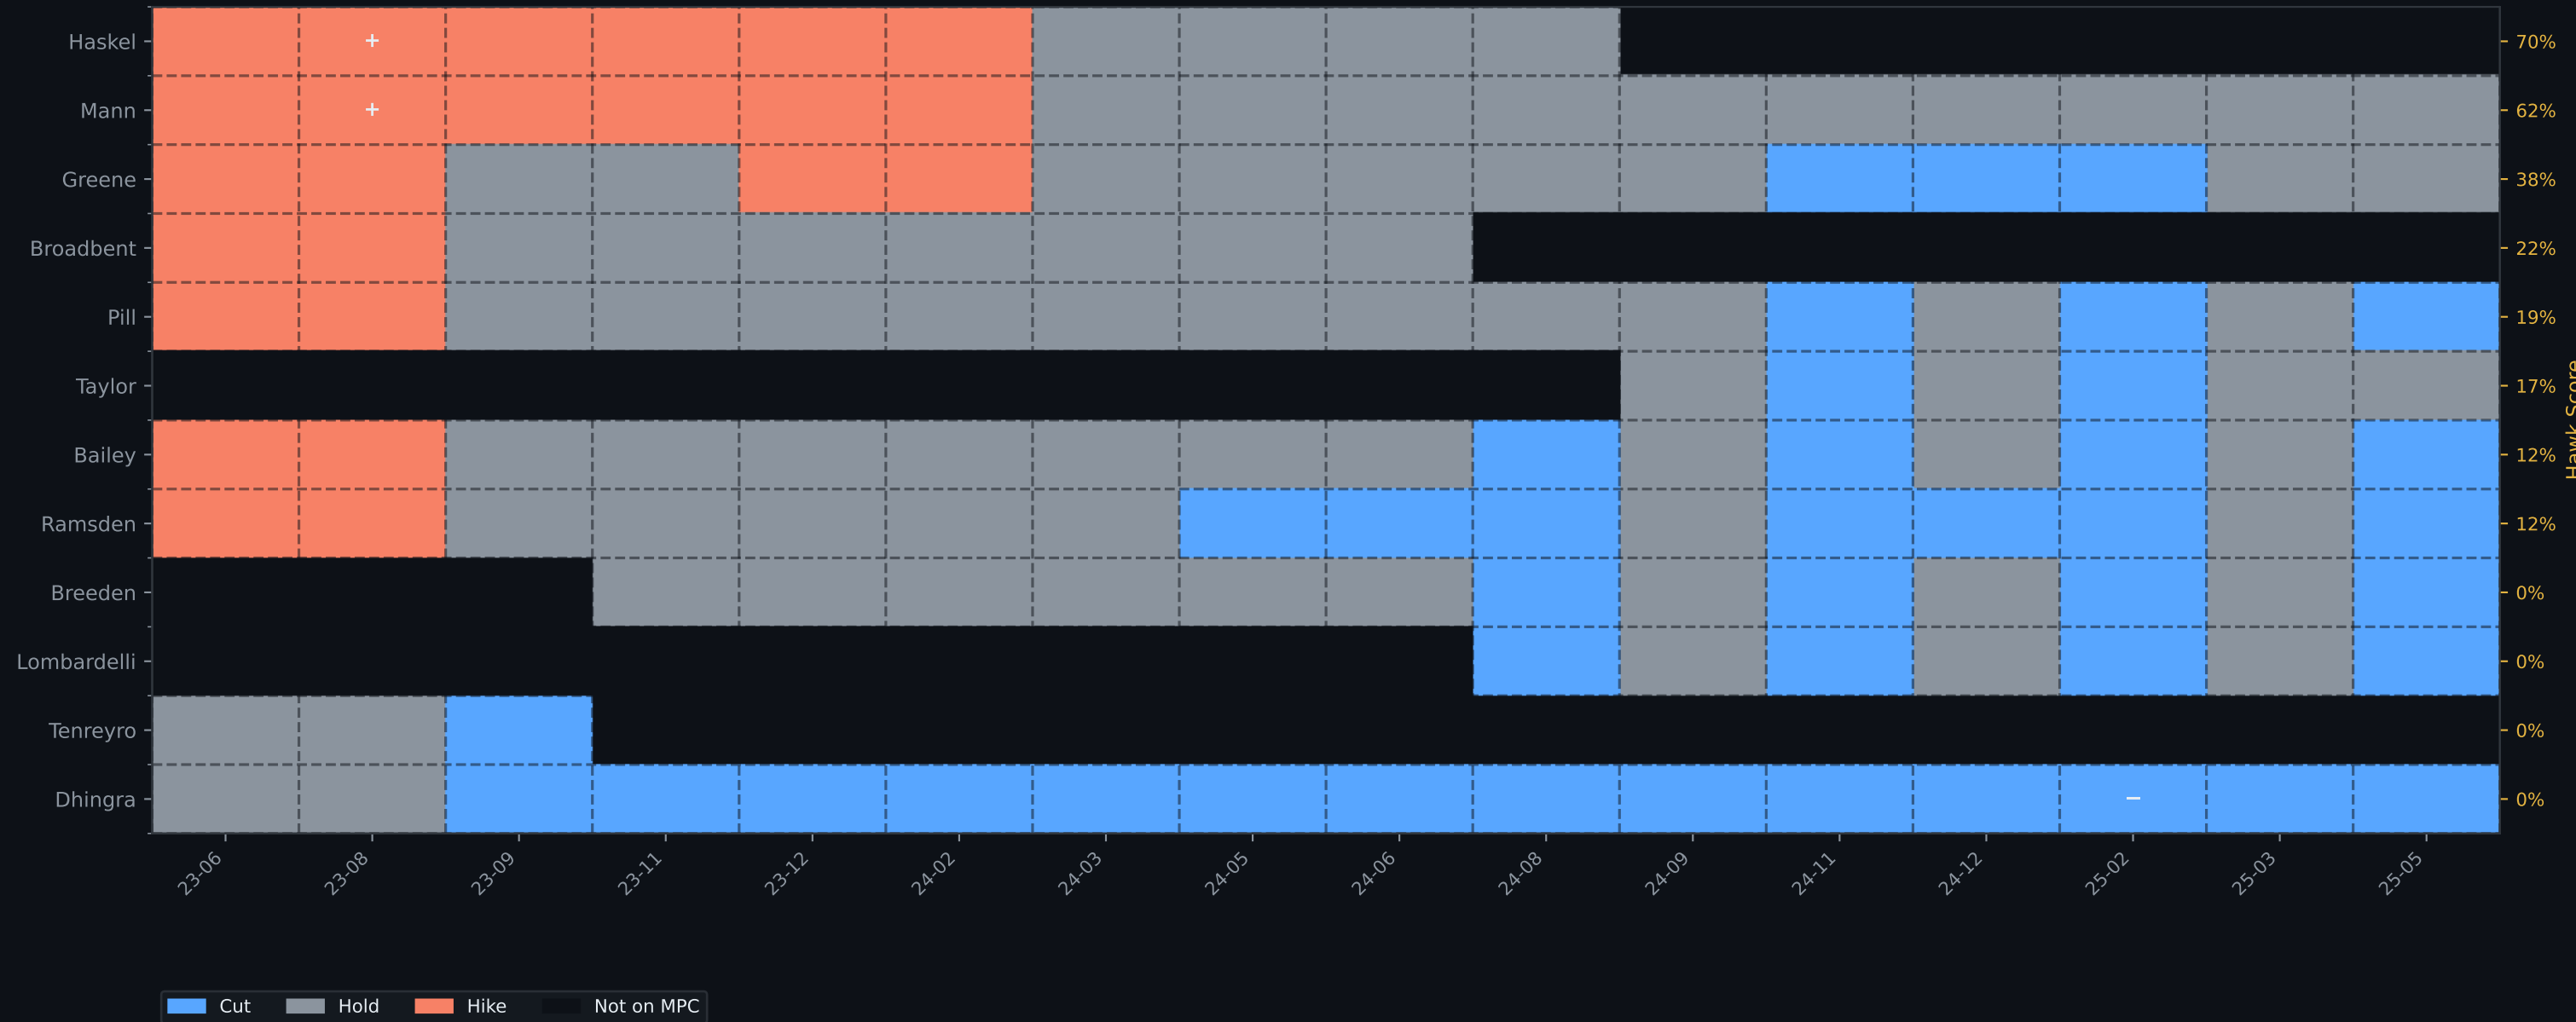

Bank Rate Path with Vote Margins (Jun 2023 – May 2025)

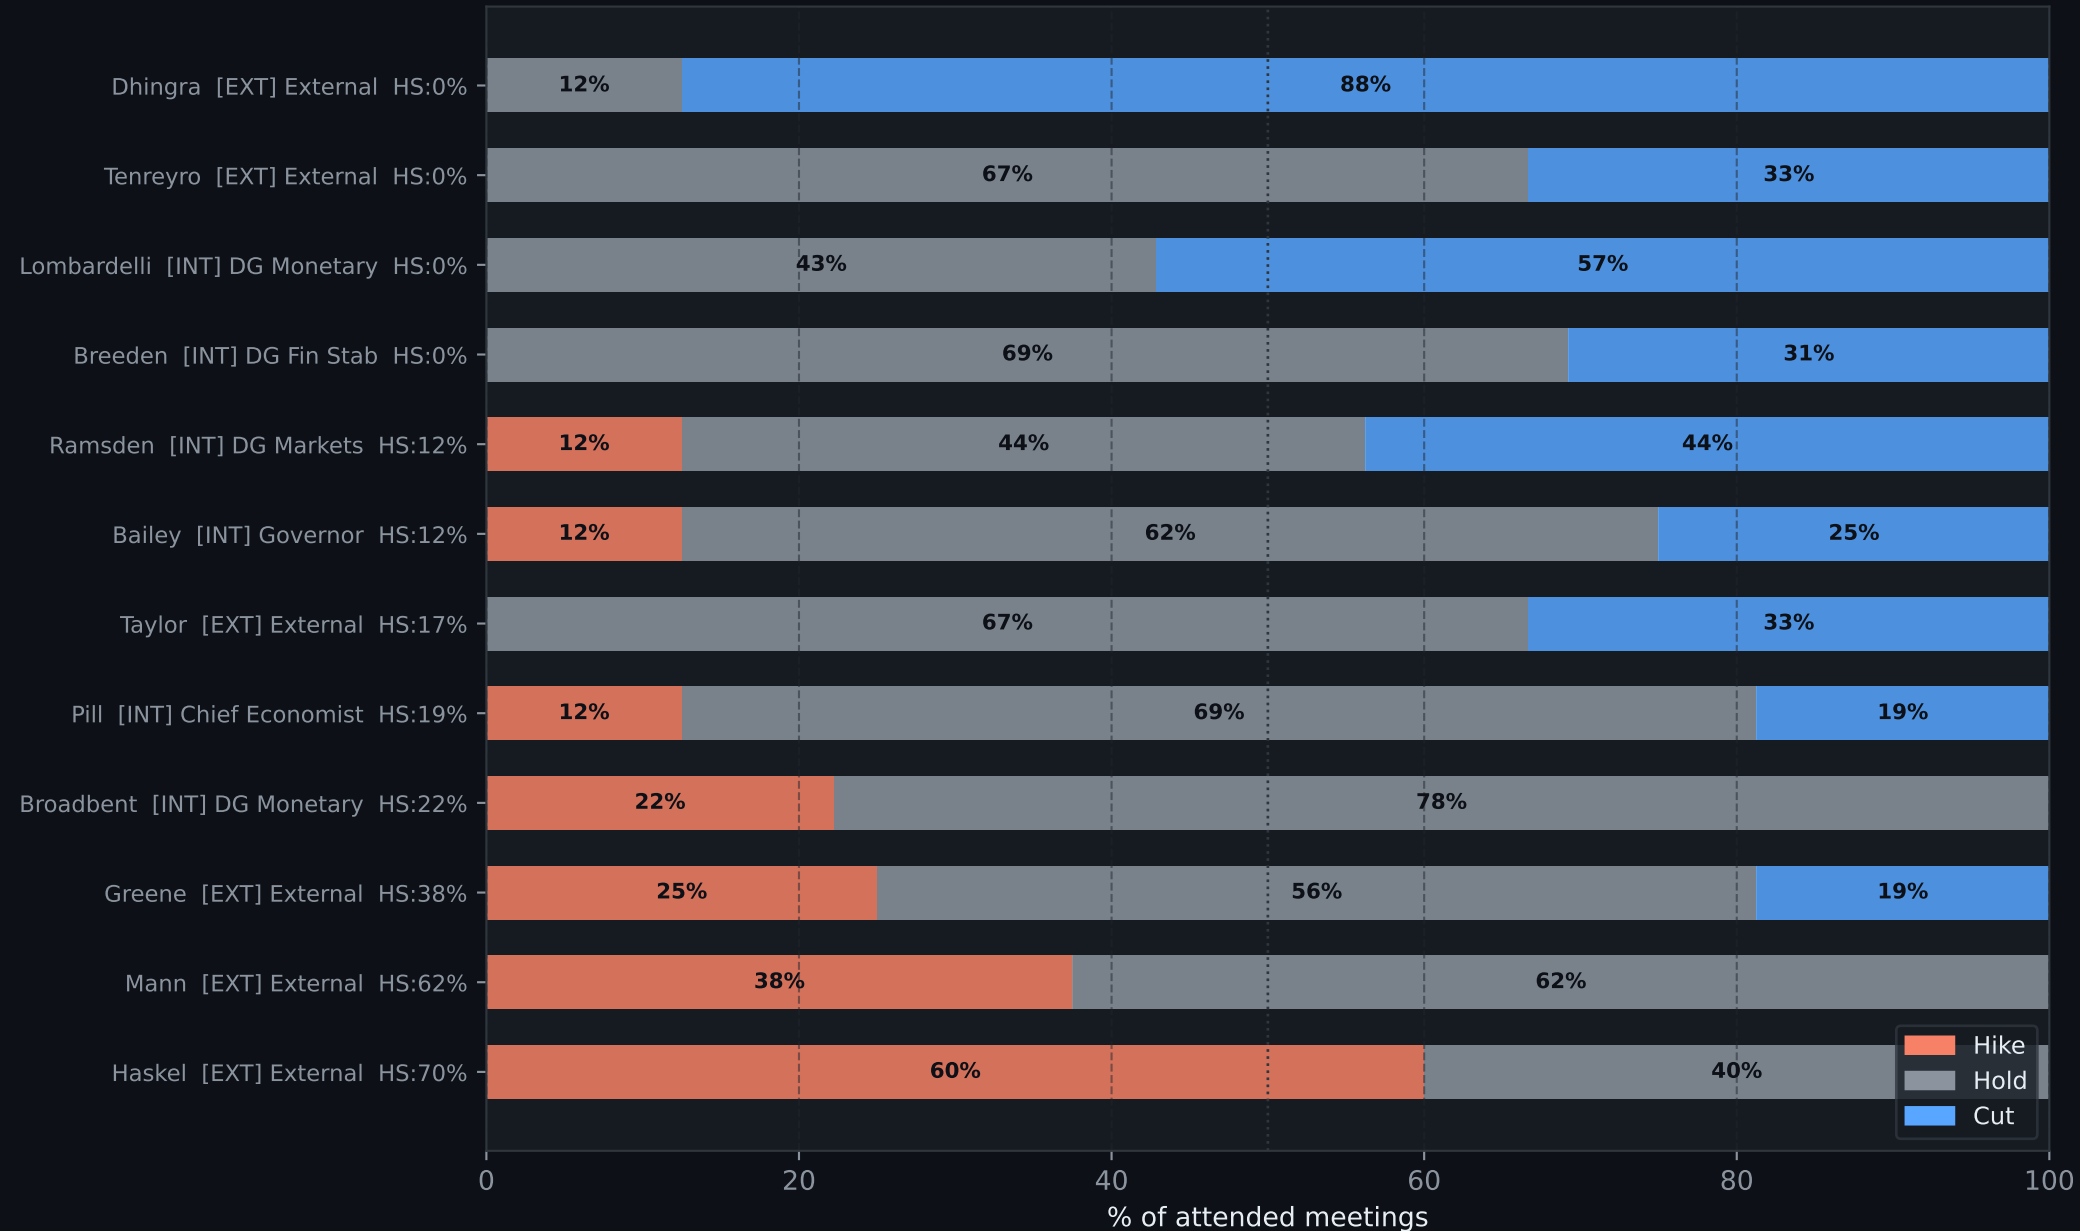

MPC Vote Composition per Meeting — Drift from Hawkish to Dovish

MPC Member Vote Heatmap | Blue = Cut · Grey = Hold · Red = Hike · White = Absent
(+/- = voted for larger move) | Hawk score = % meetings voted hike or against cut

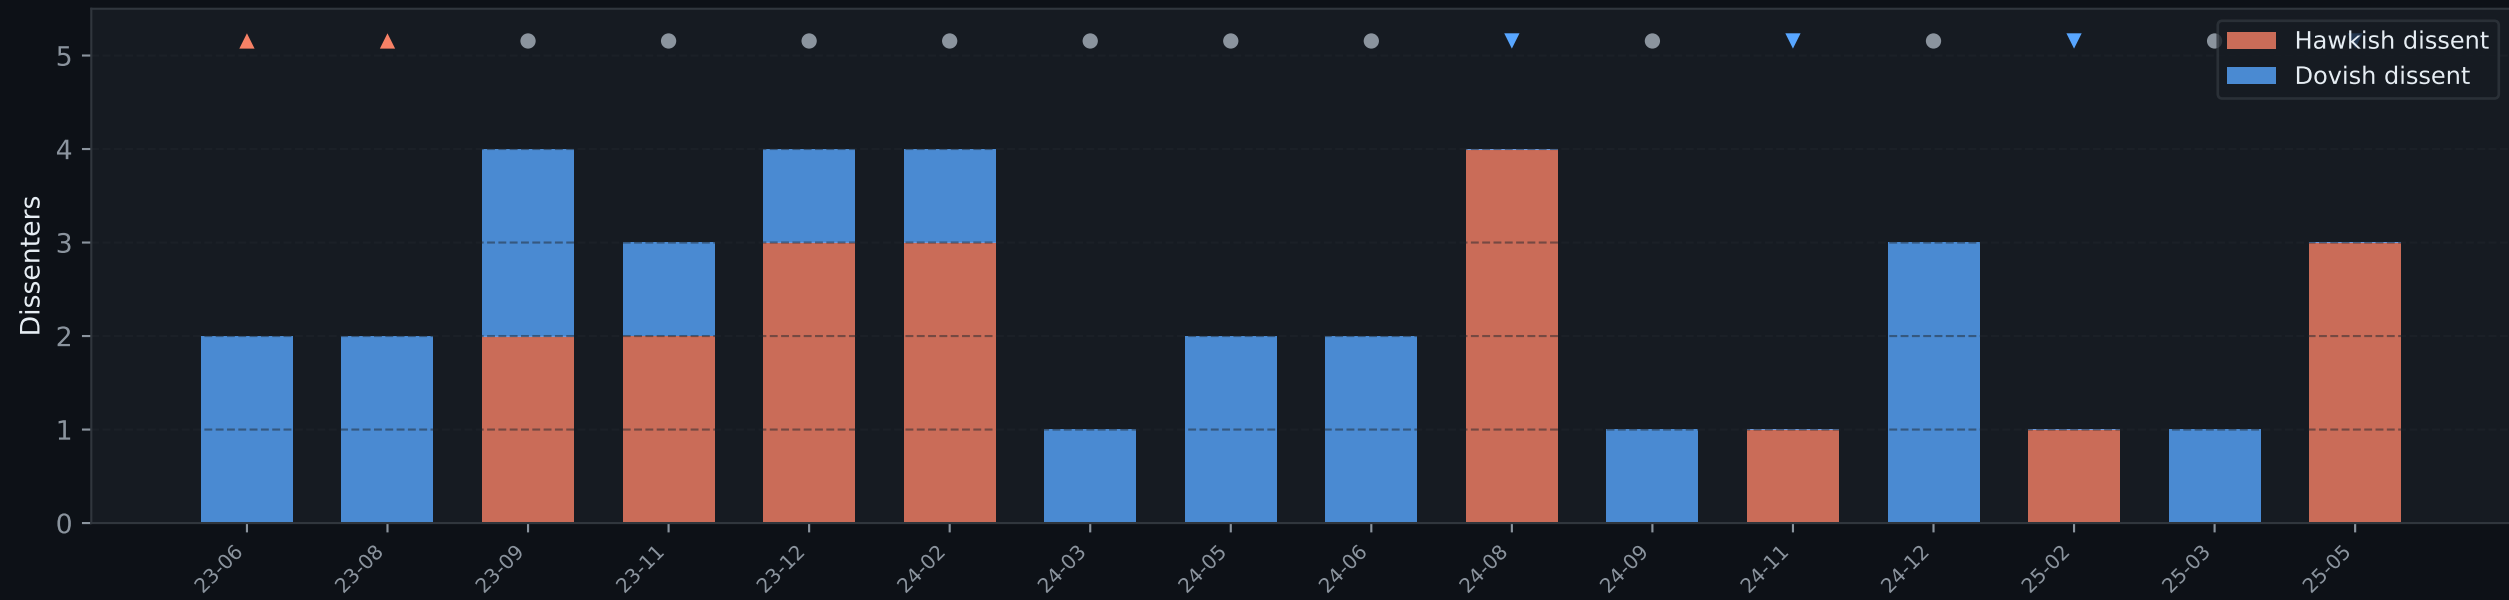

MPC Member Voting Profiles — Sorted by Hawk Score (most hawkish at top)

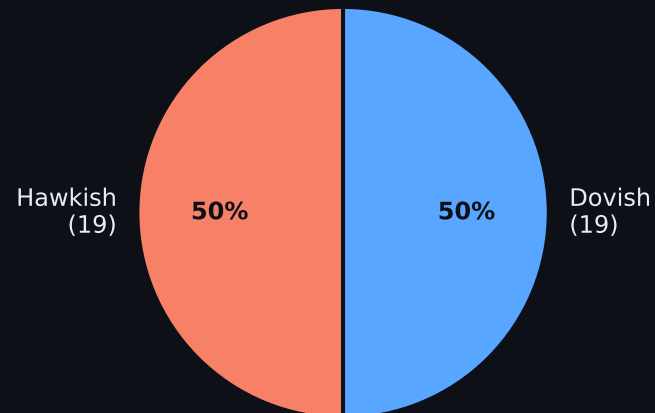

MPC Dissent Analysis — Dissenters Split Between Faster & Slower Pace

Number of Dissenters per Meeting — Red = Hawkish, Blue = Dovish
